

RAJA K

Full-Stack Developer — React.js | Node.js | Express.js | MongoDB

+91 8072831642 | rajakannan1107@gmail.com | Tiruchirappalli, Tamil Nadu | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Motivated B.Sc Computer Science student with a strong foundation in full-stack web development and hands-on experience building practical web applications using React.js, Node.js, Express.js, and MongoDB. Developed projects including Peer Project Hub, a personal portfolio website, BulkMail, and SkyCast, gaining experience in REST APIs, database integration, authentication, and responsive user interfaces. Passionate about learning new technologies, solving real-world problems, and continuously improving development skills through hands-on projects.

SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Authentication: Firebase

Tools: Git, GitHub, Postman, VS Code

Concepts: CRUD Operations, API Integration, Database Integration, Component-Based Development

PROJECTS

Peer Project Hub — MERN Stack

- Developed a full-stack platform where users can discover, showcase, and interact with peer projects.
- Implemented project creation, project details, likes, and developer information to improve user engagement.
- Built RESTful APIs using Node.js and Express.js, with MongoDB for persistent data management.
- Developed a responsive React.js interface with reusable components and improved user experience.

Personal Portfolio Website — MERN Stack

- Developed a personal portfolio website to showcase projects, technical skills, and career-related content.
- Implemented a blog platform allowing content creation, deletion, and dynamic blog detail views.
- Added blog likes and loading states to provide better user interaction and feedback.
- Designed a responsive and user-friendly interface with reusable React components and smooth navigation.

BulkMail — MERN Stack

- Developed a bulk email application that enables users to send emails to large number of recipients efficiently.
- Implemented Excel file parsing to extract and process recipient email addresses for bulk email delivery.
- Built an email sending workflow that allows users to upload recipient data and send emails in bulk.
- Developed a dedicated History page to store and view previously sent email records for easy tracking.

SkyCast — React.js / Weather API

- Developed a weather application using React.js to provide real-time weather information.
- Integrated a weather API to fetch and display relevant weather data dynamically.
- Implemented a clean and responsive interface for easy access to weather information across devices.
- Used React components and API integration to create a dynamic and interactive user experience.

EDUCATION

B.sc Computer Science | GPA: 6.9 Bishop Heber college | 2023 – 2026

CERTIFICATIONS

Prompt Engineering Course – EMC (Error Makes Clever) (May 2026)
